teksoft ventures Launches Online Advanced Navigation Course

Oak Brook, IL, June 24, 2008 – Company president, Jan Konn, announced that teksoft ventures has officially released their 2nd eLearning course, *Advanced Navigation*, which can now be purchased on the teksoft ventures website located at <http://www.teksoftventures.com/elearning.html>.

Along with the *Overview and Navigation* course released in April 2008, teksoft now has two courses that can be purchased online for a one-time per user fee of \$89.00 each. The purchased courses give learners 24-hour "ON DEMAND" access to the course for 90 days.

These new eLearning courses have also been added to the already robust library of SAP training materials used in on-site classroom training. Konn stated, "A blended learning approach in an SAP environment is no longer a "wish list" item. Clients are demanding both synchronous and asynchronous learning options." It is these options that continue to make teksoft ventures a cost effective and flexible SAP training partner.

Each of the SAP training courses are and will continue to be created by teksoft's performance-driven and proven SAP training experts. These self-paced courses include human narration, simulations of SAP, and multiple assessments throughout.

Additional courses will continue to be added to teksoft's SAP training curricula including the next eLearning course, *SAP Report Navigation*, which is set to be released by the end of the summer.

About teksoft ventures

teksoft ventures specializes in training clients to implement SAP applications using proven experience, highly qualified SAP training and configuration professionals, innovative proprietary processes, and a robust library of SAP training curricula, the teksoft Resource Library, that accelerates sustainable results. We deliver onsite, "just-in-time" project team training as well as providing role-based end user curricula. We are highly regarded professional advocates for successful education of our client's training constituents. Since 1998, we have educated clients across 10 countries and six continents, including North America, Europe, Africa, Asia, South America and Australia. Our clients come from a wide variety of industries, including Manufacturing, Financial Information Services, Consumer Products, Retail, Publishing, Pharmaceutical, Public Sector, Higher Education, and Insurance. We serve organizations that range from mid-size firms to global Fortune 500 companies.
